INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROLS OF THE UNIVERSITY AS AN ENTITY

To the Board of Control,
Michigan Technological University:

We have audited the basic financial statements of MICHIGAN TECHNOLOGICAL UNIVERSITY (the "University") as of and for the years ended June 30, 1993 and 1992, and have issued our report thereon dated August 20, 1993.

We conducted our audits in accordance with generally accepted auditing standards and the standards for financial audits contained in Government Auditing Standards (1988 Revision), issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

In planning and performing our audits of the basic financial statements of the University for the years ended June 30, 1993 and 1992, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements, and not to provide assurance on the internal control structure.

The management of the University is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of basic financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purpose of this report, we have classified the significant internal control structure policies and procedures, including the controls established to ensure compliance with laws and regulations that have a material impact on the University's basic financial statements and the results of the audits thereof, according to the following categories:

- Financial Reporting Cycle (includes controls established to ensure compliance with laws and regulations that have a material impact on the basic financial statements)
- Treasury Cycle
- Revenue Cycle

- . Payroll Expenditure Cycle
- . Vendor Expenditure Cycle
- . Conversion (Fixed Assets/Inventory) Cycle
- . Federal Grants Cycle

For all of the internal control structure categories listed above, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a reportable condition in which the design or operation of one or more of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operation that we consider to be material weaknesses as defined above.

However, we noted certain matters involving the internal control structure and its operation that we have reported to the management of the University in a separate communication dated September 24, 1993.

This report is intended for the information of the Board members, University management, the cognizant and other Federal agencies. This is not intended to limit the distribution of this report, which is a matter of public record.

ARTHUR ANDERSEN & CO.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROLS OF THE UNIVERSITY'S FEDERAL FINANCIAL ASSISTANCE PROGRAMS

To the Board of Control,
Michigan Technological University:

We have audited the basic financial statements of MICHIGAN TECHNOLOGICAL UNIVERSITY (the "University") as of and for the years ended June 30, 1993 and 1992, and have issued our report thereon dated August 20, 1993. We have also audited the University's compliance with requirements applicable to its major Federal financial assistance programs and have issued our report thereon dated August 20, 1993.

We conducted our audits in accordance with generally accepted auditing standards, the standards for financial audits contained in Government Auditing Standards (1988 Revision), issued by the Comptroller General of the United States, and Office of Management and Budget (OMB) Circular A-133, Audits of Institutions of Higher Education and Other Nonprofit Institutions. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement and whether the University complied with laws and regulations, noncompliance with which would be material to a major Federal financial assistance program.

In planning and performing our audits of the basic financial statements of the University for the years ended June 30, 1993 and 1992, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and on its compliance with requirements applicable to major Federal financial assistance programs and not to provide assurance on the internal control structure in accordance with OMB Circular A-133. This report addresses our consideration of internal control structure policies and procedures relevant to compliance with requirements applicable to Federal financial assistance programs. We have addressed policies and procedures relevant to our audits of the basic financial statements in a separate report dated September 24, 1993.

The University utilizes University Accounting Services, Inc. (UAS) as servicer for Perkins Loans administered by the University. We did not perform tests of controls to evaluate the effectiveness of the design and operation of internal control structure policies and procedures that would detect material noncompliance with requirements applicable to the University's Perkins Loans. Accordingly, we do not express an opinion on the controls utilized by UAS.

The management of the University is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that (1) assets are safeguarded against loss from unauthorized use or disposition, (2) transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of the basic financial statements in accordance with generally accepted accounting principles, and

(3) Federal financial assistance programs are managed in compliance with applicable laws and regulations. Because of inherent limitations in any internal control structure, errors or irregularities, or instances of noncompliance may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purpose of this report, we have classified the significant internal control structure policies and procedures used in administering Federal financial assistance programs in the following categories:

Accounting Control Categories:

- . Financial Reporting Cycle (includes controls established to ensure compliance with laws and regulations that have a material impact on the basic financial statements)
- . Treasury Cycle
- . Revenue Cycle
- . Payroll Expenditure Cycle
- . Vendor Expenditure Cycle
- . Conversion (Fixed Assets/Inventory) Cycle
- . Federal Grants Cycle

Administrative Control Categories:

- . General Requirements
 - Political activity
 - Davis-Bacon Act
 - Civil rights
 - Cash management
 - Relocation assistance and real property acquisition*
 - Federal financial reports
 - Allowable costs/cost principles
 - Drug-Free Workplace Act
 - Administrative requirements
- . Specific Requirements
 - Types of services allowed or unallowed
 - Eligibility
 - Matching, level of support and/or earmarking
 - Financial Reporting
 - Special reporting requirements (if applicable to specific programs)
 - Monitoring subrecipients
 - Indirect cost allocation
 - Allowable costs/cost principles (including claims for advances and reimbursements)
 - Special tests and provisions
 - Amounts claimed or used for matching

(* = not applicable to the University's 1993 Federal programs)

For all of the internal control structure categories listed above, we obtained an understanding of the design of relevant policies and procedures and determined whether they have been placed in operation, and we assessed control risk.

During the year ended June 30, 1993, the University expended 99% of its total Federal financial assistance under its major Federal financial assistance programs.

We performed tests of controls, as required by OMB Circular A-133, to evaluate the effectiveness of the design and operation of internal control structure policies and procedures that we considered relevant to preventing or detecting material noncompliance with specific requirements, general requirements, and requirements governing claims for advances and reimbursements and amounts claimed or used for matching that are applicable to each of the University's major Federal financial assistance programs, which are identified in the accompanying Schedule of Federal Financial Assistance. Our procedures were less in scope than would be necessary to render an opinion on these internal control structure policies and procedures. Accordingly, we do not express such an opinion.

Our consideration of the internal control structure policies and procedures used in administering Federal financial assistance would not necessarily disclose all matters in the internal control structure that might constitute material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that noncompliance with laws and regulations that would be material to a Federal financial assistance program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operation that we consider to be material weaknesses as defined above.

However, we noted certain matters involving the internal control structure and its operation that we have reported to the management of the University in a separate communication dated September 24, 1993.

This report is intended for the information of the Board members, University management, the cognizant and other Federal agencies. This is not intended to limit the distribution of this report, which is a matter of public record.

ARTHUR ANDERSEN & CO.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE OF THE UNIVERSITY AS AN ENTITY

To the Board of Control,
Michigan Technological University:

We have audited the basic financial statements of MICHIGAN TECHNOLOGICAL UNIVERSITY (the "University") as of and for the years ended June 30, 1993 and 1992, and have issued our report thereon dated August 20, 1993.

We conducted our audits in accordance with generally accepted auditing standards and the standards for financial audits contained in Government Auditing Standards (1988 Revision), issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

Compliance with laws, regulations, contracts and grants applicable to the University is the responsibility of University management. As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of the University's compliance with certain provisions of laws, regulations, contracts and grants. However, the objective of our audits of the basic financial statements was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion.

The results of our tests indicate that, with respect to the items tested, the University complied, in all material respects, with the provisions referred to in the preceding paragraph. With respect to items not tested, nothing came to our attention that caused us to believe that the University had not complied, in all material respects, with those provisions.

This report is intended for the information of the Board members, University management, the cognizant and other Federal agencies. This is not intended to limit the distribution of this report, which is a matter of public record.

ARTHUR ANDERSEN & CO.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH THE GENERAL REQUIREMENTS APPLICABLE TO THE UNIVERSITY'S MAJOR FEDERAL FINANCIAL ASSISTANCE PROGRAMS

To the Board of Control,
Michigan Technological University:

We have audited the basic financial statements of MICHIGAN TECHNOLOGICAL UNIVERSITY (the "University") as of and for the years ended June 30, 1993 and 1992, and have issued our report thereon dated August 20, 1993.

We have applied procedures to test the University's compliance with the following requirements applicable to its major Federal financial assistance programs, which are identified in the accompanying Schedule of Federal Financial Assistance, for the year ended June 30, 1993.

- . Political activity
- . Davis-Bacon Act
- . Civil rights
- . Cash management
- . Relocation assistance and real property acquisition*
- . Federal financial reports
- . Allowable costs/cost principles
- . Drug-Free Workplace Act
- . Administrative requirements

(* = not applicable to the University's 1993 Federal programs)

Our procedures were limited to the applicable procedures described in the Office of Management and Budget's Compliance Supplement for Audits of Institutions of Higher Education and Other Nonprofit Institutions (October 1991). Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the University's compliance with the requirements listed in the preceding paragraph. Accordingly, we do not express such an opinion.

With respect to the items tested, the results of those procedures disclosed no material instances of noncompliance with the requirements listed in the second paragraph of this report. With respect to items not tested, nothing came to our attention that caused us to believe that the University had not complied, in all material respects, with those requirements. However, the results of our audit procedures disclosed immaterial instances of noncompliance with those requirements, that we have reported to the management of the University in a separate communication dated November 30, 1993 and in the accompanying Schedule I - Schedule of Findings 1993.

This report is intended for the information of the Board members, University management, the cognizant and other Federal agencies. This is not intended to limit the distribution of this report, which is a matter of public record.

ARTHUR ANDERSEN & CO.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH SPECIFIC REQUIREMENTS APPLICABLE TO THE UNIVERSITY'S MAJOR FEDERAL FINANCIAL ASSISTANCE PROGRAMS

To the Board of Control,
Michigan Technological University:

We have audited the basic financial statements of MICHIGAN TECHNOLOGICAL UNIVERSITY (the "University") as of and for the years ended June 30, 1993 and 1992, and have issued our report thereon dated August 20, 1993.

We have also audited the University's compliance with the requirements governing (1) types of services allowed or unallowed, (2) eligibility, (3) matching, level of support and/or earmarking, (4) financial reporting, (5) special reporting requirements, (6) monitoring subrecipients, (7) indirect cost allocation, (8) allowable costs/cost principles (including claims for advances and reimbursements), (9) special tests and provisions and (10) amounts claimed or used for matching that are applicable to each of its major Federal financial assistance programs, which are identified in the accompanying Schedule of Federal Financial Assistance, for the year ended June 30, 1993. The management of the University is responsible for the University's compliance with those requirements. Our responsibility is to express an opinion on compliance with those requirements based on our audits.

We conducted our audit of compliance with those requirements in accordance with generally accepted auditing standards, the standards for financial audits contained in Government Auditing Standards (1988 Revision), issued by the Comptroller General of the United States, and Office of Management and Budget (OMB) Circular A-133, Audits of Institutions of Higher Education and Other Nonprofit Institutions. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

However, the results of our audit procedures disclosed immaterial instances of noncompliance with those requirements that we have reported to the management of the University in a separate communication dated November 30, 1993 and in the accompanying Schedule I - Schedule of Findings 1993. We considered these instances of noncompliance in forming our opinion on compliance, which is expressed in the following paragraph.

In our opinion, the University complied, in all material respects, with the requirements governing (1) types of services allowed or unallowed, (2) eligibility, (3) matching, level of support and/or earmarking, (4) financial reporting, (5) special reporting requirements, (6) monitoring subrecipients, (7) indirect cost allocation, (8) allowable costs/cost principles (including claims for advances and reimbursements), (9) special tests and provisions and (10) amounts claimed or used for matching that are applicable to each of its major Federal financial assistance programs for the year ended June 30, 1993.

This report is intended for the information of the Board members, University management, the cognizant and other Federal agencies. This is not intended to limit the distribution of this report, which is a matter of public record.

Arthur Andersen & Co.

Detroit, Michigan,
August 20, 1993.

ARTHUR ANDERSEN & CO.

INDEPENDENT AUDITORS' REPORT ON THE UNIVERSITY'S COMPLIANCE WITH REQUIREMENTS APPLICABLE TO NONMAJOR FEDERAL FINANCIAL ASSISTANCE PROGRAM TRANSACTIONS

To the Board of Control,
Michigan Technological University:

We have audited the basic financial statements of MICHIGAN TECHNOLOGICAL UNIVERSITY (the "University") as of and for the years ended June 30, 1993 and 1992, and have issued our report thereon dated August 20, 1993.

In connection with our audits of the basic financial statements of the University, and with our consideration of the University's internal control structure used to administer Federal financial assistance programs, as required by Office of Management and Budget (OMB) Circular A-133, Audits of Institutions of Higher Education and Other Nonprofit Institutions, we selected certain transactions applicable to certain nonmajor Federal financial assistance programs for the year ended June 30, 1993. As required by OMB Circular A-133, we have performed auditing procedures to test compliance with the requirements governing (1) types of services allowed or unallowed, (2) eligibility and (3) matching, level of support and/or earmarking that are applicable to those transactions. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the University's compliance with these requirements. Accordingly, we do not express such an opinion.

With respect to the items tested, the results of those procedures disclosed no material instances of noncompliance with the requirements listed in the preceding paragraph. With respect to items not tested, nothing came to our attention that caused us to believe that the University has not complied, in all material respects, with those requirements.

This report is intended for the information of the Board members, University management, the cognizant and other Federal agencies. This is not intended to limit the distribution of this report, which is a matter of public record.

Arthur Andersen & Co.

Detroit, Michigan,
August 20, 1993.

ARTHUR ANDERSEN & CO.

INDEPENDENT AUDITORS' REPORT ON SCHEDULE OF FEDERAL FINANCIAL ASSISTANCE

To the Board of Control,
Michigan Technological University:

We have audited the basic financial statements of MICHIGAN TECHNOLOGICAL UNIVERSITY (the "University") as of and for the years ended June 30, 1993 and 1992, and have issued our report thereon dated August 20, 1993. These basic financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on the basic financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards, the standards for financial audits contained in Government Auditing Standards (1988 Revision), issued by the Comptroller General of the United States and OMB Circular A-133, Audits of Institutions of Higher Education and Other Nonprofit Institutions. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audit was made for the purpose of forming an opinion on the basic financial statements of the University taken as a whole. The accompanying Schedule of Federal Financial Assistance is presented for purposes of additional analysis in accordance with the requirements of Office of Management and Budget Circular A-133, and is not a required part of the basic financial statements. The information in that schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly presented, in all material respects, in relation to the basic financial statements taken as a whole.

SUMMARY OF FEDERAL FINANCIAL ASSISTANCE

FOR THE YEAR ENDED JUNE 30, 1993

Financial Assistance

Expenditures

SUMMARY FROM PAGES 13-27

Student Financial Aid	\$ 2,860,874*
Research and Development	11,488,428*
Other Financial Assistance	<u>182,726**</u>
Total From Pages 13-27	\$14,532,028

OTHER STUDENT FINANCIAL AID

Direct:	
College Work Study	\$ 363,467
Noncash Assistance:	
Perkins Loans	5,881,943***
Stafford Loans	3,076,380
Supplemental Loans for Students	243,747
PLUS Loans	<u>6,064</u>
Total Other Student Financial Aid	\$ 9,571,601*

TOTAL FEDERAL FINANCIAL ASSISTANCE	<u>\$24,103,629</u>
---	----------------------------

* Major program

** We reviewed the account detail on pages 13-27 of this report noting no Federally funded program classified as "other" qualified as a major program

***Perkins Loans are "measured" by total loans outstanding at June 30, 1993, plus new loans awarded during the year ended June 30, 1993.

Any expense listed on pages 13-27 with a "P" in the source of funds (S/F) column is Federal pass through money. All other grants listed on pages 13-27 are direct in nature.

The accompanying notes are an integral part of this schedule.

MICHIGAN TECHNOLOGICAL UNIVERSITY

NOTES TO THE SCHEDULE OF FEDERAL FINANCIAL ASSISTANCE

FOR THE YEAR ENDED JUNE 30, 1993

(1) SCOPE OF AUDIT PURSUANT TO OMB CIRCULAR A-133

All Federal grant operations of Michigan Technological University (the "University"), are included in the scope of the OMB Circular A-133 audit (the "Single Audit"). The Single Audit was performed in accordance with the provisions of the OMB's Compliance Supplement for Audits of Institutions of Higher Education and Other Nonprofit Institutions (the "Compliance Supplement", issued October 1991). Compliance testing of all general requirements, as described in the Compliance Supplement, was performed. Compliance testing of specific requirements was performed for all major programs.

The U.S. Department of Health and Human Services has been designated as the University's cognizant agency for the Single Audit.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying Schedule of Federal Financial Assistance includes all Federal grants to the University which had activity during the year ended June 30, 1993. Grant revenues are recorded for financial reporting purposes when the University has met the qualifications for the respective grants.

MICHIGAN TECHNOLOGICAL UNIVERSITY

SCHEDULE I - SCHEDULE OF FINDINGS 1993

<u>Program</u>	<u>Finding</u>	<u>Questioned Costs</u>
----------------	----------------	-----------------------------

Finding #1

Observation

U.S. Dept. of Education	The University purchased major equipment during fiscal year 1993 and inadvertently charged it to a grant that does not provide for equipment in the budget. During the course of the audit, the error was discovered and the University properly reclassified the equipment to a non-federal account.	\$3,200
-------------------------------	---	---------

University Response

We have full implementation of a new accounting system which will put budget checking in place to monitor equipment being charged to a Federally funded account.

MICHIGAN TECHNOLOGICAL UNIVERSITY

SCHEDULE I - SCHEDULE OF FINDINGS 1993
(Continued)

<u>Program</u>	<u>Finding</u>	<u>Questioned</u> <u>Costs</u>
----------------	----------------	-----------------------------------

Finding #2

Observation

Student
Financial
Assistance

The University applies financial aid to students' accounts before the time allowed by the Federal regulations. However, no funds are disbursed directly to students until the time allowed, and the University does not request the funds from the Government until five days before the academic term begins. Therefore, there is no financial impact.

*

University Response

Beginning with the fall quarter of 1993, our institution has implemented new computer software for processing student financial aid and Student Accounts Receivable. This software allows us to select the dates for authorization and disbursement of student financial aid.

* The reimbursement effect is either nominal,
not reimbursable or not ascertainable.

MICHIGAN TECHNOLOGICAL UNIVERSITY

SCHEDULE II - STATUS OF PRIOR-YEAR (1992) AUDIT FINDINGS
RELATING TO FEDERAL FINANCIAL ASSISTANCE PROGRAMS

<u>Program</u>	<u>Finding</u>	<u>Questioned</u> <u>Costs</u>
----------------	----------------	-----------------------------------

Finding #1

Observation

U.S. Dept. of Education	We noted one case in which a University employee traveled to a foreign country without advance approval from the granting agency. We also noted a specific case where a minor exception to the University's travel policy was discovered. The University should ensure that the travel policy is enforced and provide better communications between the necessary departments.	*
-------------------------------	--	---

1993 University Response

The Deans and Department Heads were reminded in a special meeting on November 17, 1993 of the requirement that Grants Officer approval on foreign travel is required 45 days prior to travel, and were asked to relay this requirement to their faculty and staff. Also, statements that Grants Officer approval on foreign travel is required 45 days prior to trip is included on two University forms that the Principal Investigator receives. One form is the Contract Activity Sheet that is prepared by the Research Services Office when a project is funded. The other form is the Contract or Grant Budget Format prepared by the Research Accounting Office.

* The reimbursement effect is either nominal,
not reimbursable or not ascertainable.

MICHIGAN TECHNOLOGICAL UNIVERSITY

SCHEDULE II - STATUS OF PRIOR-YEAR (1992) AUDIT FINDINGS
RELATING TO FEDERAL FINANCIAL ASSISTANCE PROGRAMS

(Continued)

<u>Program</u>	<u>Finding</u>	<u>Questioned Costs</u>
	<u>Finding #2</u>	
	Observation	
Student Financial Assistance	The University applies financial aid to students' accounts before the time allowed by the Federal regulations. However, no funds are disbursed directly to students until the time allowed, and the University does not request the funds from the Government until five days before the academic term begins. Therefore, there is no financial impact.	*
	<u>1993 University Response</u>	
	Beginning with the fall quarter of 1993, our institution has implemented new computer software for processing student financial aid and Student Accounts Receivable. This software allows us to select the dates for authorization and disbursement of student financial aid.	
	<u>Finding #3</u>	
	Observation	
Student Financial Assistance	Students dropping all classes who failed to go through the University's checkout procedures were not reported to the Financial Aid Office in order to perform a refund calculation.	*

* The reimbursement effect is either nominal,
not reimbursable or not ascertainable.

MICHIGAN TECHNOLOGICAL UNIVERSITY

SCHEDULE II - STATUS OF PRIOR-YEAR (1992) AUDIT FINDINGS
RELATING TO FEDERAL FINANCIAL ASSISTANCE PROGRAMS

(Continued)

<u>Program</u>	<u>Finding</u>	<u>Questioned Costs</u>
	<u>1993 University Response</u>	
	Currently, the University is in the process of implementing a new student software system (BANNER). Since this new system operates on a relational data base, information such as check-outs and changes in tuition brackets (i.e., students dropping below half-time) will be readily accessible and retrievable by the department or area needing the data. Financial Aid and Enrollment Management will work together to establish a procedure to handle students who drop all classes and fail to go through the University's check-out procedures.	
	<u>Finding #4</u>	
	Observation	
Student Financial Assistance	Cash drawdowns were made in excess of what was allowable by Federal regulations on five occasions throughout the fiscal year. Two such occasions were due to the University drawing down in excess of three days' funds and three occasions were due to the University overdrawing on its SEOG allocation due to drawing down at 100% rather than 85%. However, these overdrafts were temporary only. At the end of the fiscal year, the University was in compliance. The estimated interest on these funds is approximately \$1,000.	*

* The reimbursement effect is either nominal,
not reimbursable or not ascertainable.

SCHEDULE II - STATUS OF PRIOR-YEAR (1992) AUDIT FINDINGS
RELATING TO FEDERAL FINANCIAL ASSISTANCE PROGRAMS
(Continued)

<u>Program</u>	<u>Finding</u>	<u>Questioned</u> <u>Costs</u>
----------------	----------------	-----------------------------------

1993 University Response

We are communicating with Financial Aid on a regular basis to be certain of the portion the DOE is required to fund. Also, our drawdowns will be closely monitored to ensure funds are received in compliance with DOE guidelines.

Finding #5

Observation

Student
Financial
Assistance

The Federal share of College Work Study (CWS) disbursements was internally reported throughout the year at 64%, rather than the 70% as allowed by Federal regulations. This practice resulted in the University allocating more CWS funds to itself and less of a Federal portion. At year end there was no effect from this practice because the University transferred the balance from the General Fund to its CWS account and the net effect was zero.

*

1993 University Response

During fiscal year 1993, our draw-down was at 70%.

Finding #6

Observation

Student
Financial
Assistance

Due to an over-award, a student was granted SEOG funds without being a PELL recipient. The PELL was canceled because of the overaward and the SEOG funds remained in the student's account in error. \$900

* The reimbursement effect is either nominal, not reimbursable or not ascertainable.

<u>Program</u>	<u>Finding</u>	<u>Questioned</u> <u>Costs</u>
----------------	----------------	-----------------------------------

1993 University Response

This was an isolated incident, but to prevent further occurrences, we have communicated to all of the staff our need to remove SEOG awards when Pell awards are eliminated.

MICHIGAN TECHNOLOGICAL UNIVERSITY

SCHEDULE III - AUDITS PERFORMED BY OTHER ORGANIZATIONS

The University has not had any audits performed by other organizations related to Federal Financial Assistance during the year ended June 30, 1993.

MICHIGAN TECHNOLOGICAL UNIVERSITY

HOUGHTON, MICHIGAN 49931-1295

GENERAL INFORMATION

Arthur Andersen & Co.
One Detroit Center
500 Woodward Avenue
Detroit, Michigan 48226-3424
Engagement Partner: Mark W. Mehall
Tel No.: (313) 596-7831

The audit was performed between June 7, 1993 and August 20, 1993 at the University's Accounting and Financial Aid Department facilities in Houghton, Michigan.

University's Major Accrediting Organization: Commission on Higher Education of the North Central Association of Colleges and Secondary Schools.

The University does not utilize an SFA Consultant. The University utilizes University Accounting Service, Inc. ("UAS"), which is located at 180 North Executive Drive, Brookfield, Wisconsin, 53005, as servicer for the Perkins Loans. The following functions are provided by UAS:

1. Billing Services
2. Collection Services
3. Loan Status Reporting

A review of UAS's internal control structure and compliance with laws and regulations was performed by Arthur Andersen & Co. - Milwaukee, Wisconsin - during the period July 1, 1992 to June 30, 1993.

Records for the accounting and administration of the Federal Financial Assistance programs are located at the Administration and Student Services Building, Houghton, Michigan 49931-1295.
